This book introduces young readers to Florida's prehistoric past. While there are numerous fossil types found in the area, this book concentrates on the Fabulous Four: The Giant Ground Sloth, the Megalodon, the Mastodon, and the Dugong. Full color photos of actual fossil specimens can be used as a guide to identifying a budding paleontologist's fossil finds.

Customer Reviews

This book is awesome. My children love it. It opens a whole new world to them and makes them want to explore. It shows them a very cool part of Florid's past and presents it to them in a way they can understand.

This easy to read - and understand - takes children into the world of fossiling in the Peace River area. This would be a great addition to the Florida History study unit. Cost could allow all students to recieve their own. Teachers guide is very useful. While this is good for anywhere in the US, it is especially great for the study of early Florida.

very helpful
