Customer Reviews

As a child I remember LOVING the DK Eyewitness series. I would sit for hours in the library reading these books. So, when I recently discovered that they still exist I had to have ALL OF THEM for my child. I started by ordering about 8 different titles. I have found that the OCEAN EYEWITNESS book

most closely resembles my childhood memories. We purchased the hardcover edition (you can choose between hard and soft cover) and the cover is textured and beautiful. However, the pictures inside are not as saturated as my memory holds. They are actually quite dull in comparison to other children's books that we own. The information and layout is what I remember it to be, large photographs and lots of little facts sprinkled throughout the photos. I still love these books, and would recommend them to anyone with children. The library binding is nice and seems like it will hold up over the years. Side note: Some of the other DK Eyewitness Books have a hole cut out in the cover to showcase a free clip art CD. This book does not have that hole, or the free clip art CD.

This book feels quite dated. It is a reprint of a book from the 90s and it shows. Plus, the one I received was in such bad condition it looked used. Definitely not worth buying.

Excellent book for resource and education. The product arrived on time and as described.

It was better than a poke in the eye! Ha. Actually I liked it. Pictures were all some..... But the reason I don't order more books, is because the p. and H. is much too high. Sometimes it's cheaper to go to the book store w/o the wait.

I loved these as a kid and 25 years later I'm glad to see they're still great now that I'm buying them for my kids.

my granddaughter swims in the Pacific Ocean and enjoys the vivid pictures and information found in this book

Gorgeous pictures and a great present for a budding oceanographer!
