Kids To The Rescue!: First Aid Techniques For Kids

Synopsis

This simple first aid book helps kids think wisely in an emergency. Well illustrated and easy to understand, it describes accident situations that children are likely to find themselves in. The paramedic/teacher author team provides step-by-step directions for handling such common problems as cuts, bloody noses, stings, electric shock and burns. One of our most popular children's books, Kids to the Rescue! opens with a note for parents, explaining how children can practice the first aid techniques. It concludes with a first aid quiz and instructions on calling 9-1-1 and other emergency numbers. The back cover has an index so kids can easily find the page of instructions they need. Expanded and revised to cover HIV-safety.

Book Information

Lexile Measure: 510 (What's this?)

Paperback: 72 pages

Publisher: Parenting Press; Revised edition (January 1, 2003)

Language: English

ISBN-10: 1884734782

ISBN-13: 978-1884734786

Product Dimensions: 5.5 x 0.2 x 8.5 inches

Age Range: 4 - 12 years

Grade Level: Preschool - 7

Customer Reviews

This book would be better than having no first aid book or reference at all - but, not much better. Topics covered include: nose bleed, something in eye, bleeding, broken bones, dog and snake bite, poisoning, insect sting, chemical burn in eye, choking, electric shock, burns, unconsciousness, clothes on fire, and dialing 911. There is also a quiz in the back. The number of topics covered are OK, but the information is often incomplete. Three examples: 1) The section on bee stings omits any discussion on finding and removing the bee's stinger without accidentally getting more bee venom

in the wound. 2) The section on dog bites omits any information on how to avoid getting bitten. 3) The section on broken bones has a grand total of 53 words of advice. In fact most sections of the book fail to mention ways to avoid injury, or methods of care that are included in other children's 1st aid books. Although this book is inexpensive - I feel it is not a good buy. For a little more money I highly recommend "The Safety Book for Active Kids", which is sold by .

IT WORKED WELL FOR GIVING TRAINING TO OUR CUB SCOUTS.

My five year old granddaughter loved it. I read it to her over a week's trip to see her. She is very interested in first aid this book was something she could understand and absorb.

I think that kids my age (7) should read this book. If they have a frisky little sister like me, they're going to babysit her soon and they will need to know these things.
